

Lashing buckle and hook 5T (50MM)

Lashing buckles and hooks are essential to the tightening and preservation of your lashing webbing on packages that need to be stabilized during transport. Easy to use, it is the most common lashing way when ratchet lashing is not adapted to packaging shape or hanging possibility.

Hooks 50/12

- Welded steel wire hooks diam. 12mm
- Tensile strength : 5 000kg
- Webbing max width : 50mm
